Investors should read the Company's prospectus and SEC filings (which are publicly available on the EDGAR Database on the SEC website at <http://www.sec.gov>) carefully and consider their investment goals, time horizons and risk tolerance before investing in the Company. Investors should consider the Company's investment objectives, risks, charges and expenses carefully before investing in securities of the Company. There is no guarantee that any of the goals, targets or objectives described in this presentation will be achieved. An investment in the Company is not appropriate for all investors, is speculative and entails substantial risk. An investment in the Company is not intended to be a complete investment program. Shares of closed-end investment companies, such as the Company, frequently trade at a discount from their net asset value, which may increase investors' risk of loss.

Past performance is not indicative of, or a guarantee of, future performance. The performance and certain other portfolio information quoted herein represents information as of dates noted herein. Nothing herein shall be relied upon as a representation as to the future performance or portfolio holdings of the Company. Investment return and principal value of an investment will fluctuate, and shares, when sold, may be worth more or less than their original cost. The Company's performance is subject to change since the end of the period noted in this report and may be lower or higher than the performance data shown herein.

Neither OFS nor the Company provides legal, accounting or tax advice. Any statement regarding such matters is explanatory and may not be relied upon as definitive advice. Investors should consult with their legal, accounting and tax advisers regarding any potential investment. The information presented herein is as of the dates noted herein and is derived from financial and other information of the Company, and, in certain cases, from third party sources and reports (including reports of third party custodians, CLO collateral managers and trustees) that have not been independently verified by the Company. As noted herein, certain of this information is estimated and unaudited, and therefore subject to change. We do not represent that such information is accurate or complete, and it should not be relied upon as such. This report does not purport to be complete and no obligation to update or revise any information herein is being assumed.

Information contained on our website is not incorporated by reference into this report and you should not consider information contained on our website to be part of this report or any other report we file with the SEC.

Why OFS and OCCI?

Long-Standing CLO Manager with Expertise in Structuring CLOs and Investing in the Underlying Corporate Loans

OFS is an Experienced CLO Equity Investor

Robust Credit Team with Analyst Coverage of the Senior Secured Loan Market

OFS has a Strong Balance Sheet and Low Leverage

1. As of December 31, 2025. Includes OFS Capital Management, LLC, and its affiliated registered investment advisers, OFS CLO Management, LLC, OFS CLO Management II, LLC and OFS CLO Management III, LLC. Certain assets under management may be reflected at par.
 2. Reflects annualized distribution rate on the most recent monthly all-cash distributions of \$0.05 declared for each of March 2026 and April 2026. The March 2026 distribution is payable on March 31, 2026, in cash to stockholders of record as of March 16, 2026. The April 2026 distribution is payable on April 30, 2026, in cash to stockholders of record as of April 15, 2026.
 3. Based on OCCI's estimated net investment income, as determined in accordance with U.S. generally accepted accounting principles ("GAAP"), for the one month ended January 31, 2026. OCCI estimates that 55% of calendar year 2026 distributions were from ordinary income and 45% were from return of capital. The Company's fiscal year differs from the calendar year period on which the tax character of distributions is determined for Form 1099-DIV reporting purposes. The ultimate tax character of the Company's distributions cannot be determined until the corresponding tax return is filed. The estimated information provided was determined in accordance with GAAP, which differs from tax-basis principles and regulations, and is not for tax reporting purposes and could differ materially from amounts reported to common shareholders on Form 1099-DIV. Past performance is not indicative of future results, and distributions are not guaranteed.
 4. Our Dividend Reinvestment Plan (DRIP) offers our common stockholders the opportunity to receive a 5% discount to the market price per share of common stock at the close of regular trading on The Nasdaq Capital Market on the valuation date fixed by the Board for each distribution (i.e., the payment date).
 5. Includes distributions declared for February 2026, March 2026, and April 2026.

Supplemental Schedule - Core Net Investment Income

We provide information relating to Core NII (a non-GAAP measure) on a supplemental basis. This measure is not provided as a substitute for GAAP NII, but in addition to it. Our non-GAAP measures may differ from similar measures by other companies, even if similar terms are used to identify such measures. Core NII represents GAAP NII adjusted for differences in applicable cash distributions received on our CLO equity and equity-related investments that have not been optionally redeemed relative to income recognized in accordance with GAAP. OFS Capital Management, LLC, our investment adviser, uses this information in its internal analysis of results and believes that this information may be informative in gauging the quality of the Company's financial performance, identifying trends in its results, and providing meaningful period-to-period comparisons.

Income from investments in the "equity" class securities of CLO vehicles, for GAAP purposes, is recorded using the effective interest method; this is based on an estimated effective yield, at current amortized cost, to the expected redemption of the security utilizing assumed cash flows, including those CLO equity investments that have not made their inaugural distribution for the relevant period end. The result is an estimated effective yield for the investment in which the respective investment's cost basis is adjusted quarterly based on the difference between the actual cash received, or distributions entitled to be received, and the income recognized via the estimated effective yield calculation. Accordingly, investment income recognized on CLO equity and equity-related securities in the GAAP statement of operations differs from the cash distributions actually received by the Company during the period (referred to below as "CLO equity adjustments"). Therefore, management believes that Core NII may provide a useful indicator of distributable operating income, as this reflects a measure of potential cash availability, net of operating expenses, that could be utilized to cover distributions to common stockholders. We note that this non-GAAP measure has no bearing on the tax character of the common stock distributions made during the period, and future distributions are not guaranteed. A portion of current and future common stock distributions may consist of a return of capital for tax purposes. The actual tax character of our earnings cannot be finally determined until our tax return is prepared after the close of our taxable year.

The following table provides a reconciliation of GAAP NII to Core NII for the fiscal quarters ended January 31, 2026 and October 31, 2025 (unaudited):
